

PUBLIC DISPLAYS

Narrow Bezel

**Information display. Digital Signage.
Command & Control.**

Green approach. We care.

CONRAC Technology
Makes your display last longer.

Innovation. Experience. Flexibility. Quality.

eDPM
Display Performance Monitoring

A special sensor integrated in the front bezel continuously monitors the TFT panel's function (backlight, inverter, power supply and interface). Any malfunction is immediately detected and reported.

Vertical cluster of 3

Cluster of 6

Horizontal cluster of 2

Applications

DIGITAL SIGNAGE COMMAND & CONTROL

Display of information, advertising and entertainment in waiting and sales areas in all kinds of digital signage systems where a front protection of the display is not required.

The Narrow Bezel series is ideally suited for video walls, guest and visitor information systems, POI (Point-of-Information), POW (Point-of-Waiting) and POS (Point-of-Sale) applications.

B2B

- Cultural facilities – museums, theatres, cinemas
- Governmental, municipal & other public buildings
- Banking & finance
- Sports facilities
- Leisure & recreational facilities
- Supermarkets & shops
- Exhibition & event centres
- Conferencing
- Hotels & restaurants
- Lounges & waiting areas

Command & Control

- Power plants
- Municipal utilities
- Traffic control for railway, subway, light rail, bus networks
- Broadcast control centres
- Facility management
- Security systems

Features & advantages

HIGHLY FLEXIBLE SLIM & AS LARGE AS YOU WISH

An application long waited for can now be realised: Display walls using large flat screens with near to no disturbing frame in between.

The latest generation of flat screens for digital signage is mainly characterised by the almost frameless design. The minimum bezel width the high resolution and excellent image quality makes the Narrow Bezel series the ideal displays for cluster solutions and video walls.

As a result of extensive R&D, Conrac has implemented various vital cTEC functions into their displays to guarantee maximum reliability and durability, thus contributing to a reduced cost of ownership.

- Bezel width of less than 1.5mm
- Landscape and portrait mode possible
- Remote control & monitoring
- Sunlight readable high brightness panels for installation in high-ambient-light conditions (optional)
- VESA compatibility simplifies quick & easy mounting
- Long-term service and support guaranteed
